

SWETHA S

UI/UX Designer

swethaseyavelu@gmail.com | 9498828876, 6383967759

SUMMARY

Aspiring UI/UX Designer transitioning from a client-facing healthcare claims role into design, backed by a Google UX Design Professional Certificate and multiple hands-on design projects covering research, wireframing, and high-fidelity UI in Figma. Brings strong user empathy, attention to detail, and stakeholder communication built over a year in claims management.

PROJECTS

Butterfingers — Home Bakery Mobile App (UX Case Study)

- End-to-end mobile app concept for a home-based bakery to showcase products and manage orders digitally.
- Conducted user research, defined personas and user flows to identify pain points around scheduling and delivery tracking.
- Created low-fidelity wireframes through high-fidelity UI and an interactive Figma prototype — product catalog, cart, checkout, and order tracking — using Google AI Studio to speed up ideation.

Neighbour to Neighbour — Hyperlocal Tool-Lending App (UX Case Study)

- Hyperlocal mobile app concept turning idle garages into a shared community toolbox for borrowing and lending tools.
- Mapped lender/borrower journeys; designed listing, nearby search, borrow requests, and a trust/rating system.
- Built wireframes and high-fidelity UI in Figma, using Claude and ChatGPT to speed up research and ideation.

Fresh Track — Product Expiry Tracking Mobile App

- Mobile app concept to track expiry dates of household and grocery products, reducing waste and missed usage.
- Designed flows for adding items, expiry reminders, and an at-a-glance dashboard; built wireframes and high-fidelity UI in Figma focused on scannability and quick data entry.

Toy Traders — Responsive Website for Toy Exchange

- Responsive website to exchange, sell, or buy toys, giving unused toys a second life and a sustainable play cycle.
- Designed listing, browse/search, and exchange/purchase flows with responsive layouts; built wireframes and high-fidelity UI in Figma across breakpoints.

WORK EXPERIENCE

Client Partner — Claims Management

Oct 2024 – Jan 2026

Access Healthcare, Coimbatore

- Managed end-to-end healthcare insurance claims processing daily, ensuring accuracy and timely resolution within strict SLA targets.
- Primary point of contact for client communication, translating requirements into clear, actionable steps — a direct precursor to translating user needs into design requirements.
- Identified recurring process bottlenecks and proposed workflow improvements; maintained close attention to detail on high-volume, sensitive data while resolving escalations cross-functionally.

SKILLS

Design Tools: Figma, Antigravity, Claude, Google AI Studio, Canva

UX Process: User Research, Personas, User Flows, Wireframing, Prototyping, Visual/UI Design, Responsive Design, Usability Principles

Transferable Skills: Client Empathy, Stakeholder Communication, Process Analysis, Attention to Detail, Problem Solving, Multi-tasking, Teamwork

CERTIFICATIONS

- Google UX Design Professional Certificate — Coursera, April 2026

EDUCATION

B.Sc. Mathematics — Hindustan College of Arts and Science, Coimbatore (Bharathiar University) • CGPA: 7.5 • 2021

HSC — Adharsh Vidhyalaya Matric Hr Secondary School, Erode (State Board) • Percentage: 78% • 2018

SSLC — Adharsh Vidhyalaya Public School, Erode (Central Board) • CGPA: 10 • 2016
